

Education

- 2009-2012 **PhD** in biodiversity assessment with acoustic methods, Muséum national d'Histoire naturelle (MNHN), France.
- 2007-2009 **Master's degree** in Ecology, Biodiversity and Evolution with a specialization in Conservation biology. Agro Paris Tech, ENS, MNHN and Paris 6, UFR des sciences d'Orsay, France.
- 2005-2007 **Bachelor's Degree** in Biology of Organisms and Ecosystem - Ecology (BOE-E), Université de Paris-Sud, France.

Professional Experiences

- 2017-now Researcher permanent position for the Institut de Recherche pour le développement (IRD, France). Institut Méditerranéen de Biodiversité et d'Écologie Marine et Continentale (IMBE) IMBE UMR | Aix Marseille Université, CNRS, IRD, Avignon Université.
- 2014-2016 **Post-doctoral position in "Soundscape Ecology"**, advised by Dr. Bryan C. Pijanowski at the Center for Global Soundscapes, Purdue University, Indiana. Funded by the National Science Foundation (NSF).
- 2013 **Development and application of an acoustic monitoring protocol to evaluate the diversity and composition of grillidae communities.** Co-advised by Dr. Laure Desutter-Grandcolas (UMR7205 CNRS-MNHN) and Dr. Hervé Jourdan (IMBE-IRD, Nouméa), Nouméa. Funded by the «Actions Transversales» du MNHN» (ATM).
- 2013 **Post-doctoral position in "Anthropic impacts on Chiropteran populations: habitat modifications and wind farms".** Advised by Dr. Jean-François Julien (UMR 7204 CNRS-MNHN), Paris. External collabotors: Maïa Eolis et CPIE pays de Soulaines. Funded by the French Environment and Energy Management Agency (ADEM).
- 2009-2012 **PhD in "Analyses and monitoring of biodiversity using a new passive acoustic method: the Rapid Acoustic Survey".** Co-advised by Dr. Philippe Grandcolas, Dr. Jérôme Sueur (UMR 7205 CNRS-MNHN) and Dr. Sandrine Pavoine (UMR 7204, CNRS-MNHN). Funded by the « Institut Ecologie et Environnement » of the « Center National de la Recherche Scientifique » (INEE-CNRS).
- 2009 **DNA analysis for phylogenetic studies of Orthoptera species micro-endemic to New Caledonia.** Co-advised by Dr. Romain Nattier and Dr. Tony Robillard (UMR 7204 CNRS-MNHN), Paris.

2009	Study of rats impact on a insular species of lizards <i>Anolis sagrei</i>. Advised by Dr. Ryan Calsbeek from Dartmouth University, New Hampshire (USA).
2008	Set-up of a monitoring plan for french Chiroptera in "Essonne" area (France). Advised by Jean-Marc Lustrat from Conseil général de l'Essonne, Evry, France.

Area of Expertise

Leadership Experiences

- Management and development of the *Center for Global Soundscapes* sound library.
- Scientific consultations for the CGS projects and for FoxFire Interactive Company.
- Management of the collaborative data collection network (Wells, Maine USA; Chiricahua National Monument, Arizona USA; La Selva, Costa Rica).
- Report writing (Office, LaTeX), graphic design (Adobe Illustrator and InDesign), oral presentation of results and work statement. Work with Linux, Windows and Mac.
- Extensive multidisciplinary collaboration.

Teaching Experiences

- Developing and teaching introductory course about soundscape ecology. 5 h. Level course for Master and PhD.
- Co-authoring and teaching multi-modal curriculum for middle school youth called Your Ecosystem Listening Lab (YELLS) to both middle school and visually impaired students from Perkins School for the Blind.
- Teaching acoustic data analysis at Global Sustainable Soundscapes Network (GSSN), July 2015.
- Creating and teaching a course about the use of acoustic for taxonomic identification. 2 h. Level Master. MNHN. Paris.
- Teaching assistant of a class about ecological and acoustic analyses with the software R. 60 h. Level: Master and PhD. MNHN. Paris.

Mentorship Experience

- Co-advising and mentoring of both undergraduate (7 students) and graduate (3 masters and 5 PhD students).

Methods Development

- Developing protocols for recording collections in natural area.
- Developing acoustic diversity indices and bioacoustics signal analyses for addressing biodiversity assessment and species identification.

Analytic Tools

- Acoustic signal analyses: Avisoft, Goldwave, Audacity, R (seewave, tuneR).
- Expertise in R coding: function creation for frequency peak detection in a recording (fpeak {seewave}) and analyses semi-automatic of bioacoustics signals. Basic knowledge in other language such as Python, Latex, SQL, Html5 and PHP.
- Acoustic recorder and microphones: D240X, SM1 to SM4, Zoom H1 to H5, Mixer SoundDevices. Recording in various environments: terrestrials and aquatics, in all range of frequencies. Microphones omnidirectional, figure 8 and cardioid.
- Statistical analyses uni- and multi-variables, temporal and spatial.

- Manipulation of BigData set. Basic knowledge in SQL language, manipulation of SQL data base using phpMyAdmin. Use of Clusters resources for a calculs automatisation.
- Molecular analyses: DNA extraction and amplification, PCR.
- Cartography. Arcgis 10, Qgis 1.8.

Field Work Expertise

- Knowledge in bird and chiropteran groups, base in floristic.
- Expertise in insular areas (Bahamas and New-Caledonia), temperate forest (France), tropical forest (New-Calédonia, India and French Guyana), desert (Arizona, USA), tidal zone (Maine, USA) and aquatic temperate ponds (France).
- Diving Level 1, First Aid valid until end 2016

Co-Organization of Workshops and Public seminars

- 2014 and 2015 Workshops of the 'Global Sustainable Soundscapes Network'.
- Scientific conferences about bioacoustics research in 'la cité des sciences et de l'industrie' for the scientific day 2012 in collaboration with the journalist Antonio Fischetti.

Langage Skills

- French (native speaker), English (fluent), Spanish (reading).
