

The Seventh International Symposium on Environmental Biotechnology and Engineering

May 22-26, 2023 - Marseille, France

©Germán Aroca/UPCV

Main Topics

Risk Assessment & Environmental Impact

Technology Development For Environmental Protection & Restoration

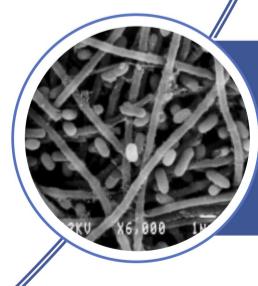

Emerging Pollutants

Biorefinery & Renewable Energy Production

Societal Challenges

Cross-cutting tools (analytical chemistry, microbiology & molecular biology, thermodynamics, control of processes & modelling...)

Abstract submission deadline: January 2, 2023
